Art Unit: 1712

1. This application is in condition for allowance except for the following formal matters:

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The instant claims are neither taught nor suggested by the prior art. Applicants have cited some references, such as the Spinelli references, in their IDS that were not cited on the face of 6,031,059. These references fail to teach or suggest a silylated hydrophilic monomer. LeBoeuf and Shibata et al. teach lens compositions containing a hydrophilic siloxane monomer, but neither teaches or suggests this in combination with a hydrophobic siloxane prepolymer. The prior art fails to provide any motivation or guidance to select a prepolymer and monomer as required by the instant claims in a process for producing a hydrogel as claimed.
